

FRANCISCO SILVA

I am a creative and curious front-end developer with a passion for transforming ideas into functional and visually engaging digital experiences. I have hands-on experience with HTML, CSS, SASS, TypeScript, and frameworks such as Angular and React, applying responsive design and code optimization.

In parallel, I have worked with photography since 2016 and 3D animation and rendering with Blender since 2015, participating in several animation and post-production teams.

I am also experienced in video editing and motion design using After Effects, and photo editing and post-production in Lightroom.

I value collaborative environments that combine technology, art, and sustainability, fostering innovation and attention to detail.

PROJECTS & HIGHLIGHTS:

- Remechido.com (Designer PortFolio)
- Wasteapp.pt
- MSI Creator Awards Nominee 2020 (2nd)
- MSI Creator Awards Nominee 2021 (3rd)
- MSI Creator Awards Nominee 2022 (2nd)

PROFESSIONAL EXPERIENCE

Front-End Developer & Creative Designer

Venga Digital (2024 - 2025)

- Developed websites focused on energy efficiency and reducing digital carbon footprint.
- Optimized code to minimize resource consumption and improve environmental performance.
- Contributed to the creation of a CO₂ Calculator to assess websites' environmental impact.

Customer Support & Sales Assistant

Chiptec Informática (Chiptec.net) | 2023

- Provided customer service and technical assistance for computer equipment.
- Managed warehouse logistics and product organization.
- Handled stock replenishment and client inquiries.

Professional Internship

IT PEOPLE (Next Reality - nextreality.com) | 2022

- Developed augmented and virtual reality prototypes.
- Participated in the WasteApp project, promoting environmental and technological sustainability.
- Worked in a multidisciplinary team (remote and on-site) focused on innovation and usability.

EDUCATION

Instituto Superior de Tecnologias Avançadas de Lisboa

Bachelor's in Computer Engineering | 2024 - Present

- Networks and Communications
- Algorithms and Data Structures
- Programming
- Artificial Intelligence

Lisbon School of Design

Design e Desenvolvimento Web | 2023 - 2024

- Client-side and server-side web development
- Digital marketing & web copywriting
- Image editing with Photoshop
- Web Design

Escola Secundária da Moita

IT Systems Management and Programming | 2019-2022

- Network configuration (client and server side)
- Programming in C++, C#, PHP, HTML, CSS, ASP, SQL
- Developed an online art gallery project (ProFolio.pt)
- Trained in computer equipment maintenance
- Proficient in Word, PowerPoint, Excel

TECHNICAL SKILLS

- **Languages:** C++, C#, PHP, HTML, CSS, TypeScript, SQL, ASP
- **Tools:** Blender, Photoshop, Figma, Visual Studio, MS Office
- **Areas of Expertise:** Sustainable Web Development, Angular & PrimeNG, SASS, Responsive Design, Code Optimization, Networking, AI, Augmented Reality, 3D Animation, Photography

COMPLEMENTARY TRAINING & INTERESTS

- Workshop: "From Web2 to Web3: Promises of Decentralized Technology" (Lena Hierzi)
- Virtual Innovation Consortium (VIC), 2025: Extended Reality (XR) Training - Focus on AR/VR
- Photography (portraits, product, and events) since 2016
- 3D animation and rendering with Blender since 2015
- Video editing and motion design with After Effects and Lightroom
- Interest in technological innovation and sustainable design
- Nomeado para os MSI Creator Awards (2020, 2021, 2022).
